

Green Solutions - LEED

Credit Category	LEED Credits	Description
Credits MR2	2 Points Possible 50%/75%	Recyclable Packaging Our cabinet packaging is recyclable corrugated cardboard that can earn the MR 2.1 or MR 2.2 credits.
Credits MR4	2 Points Possible	Reusable Products Our cabinets can be reused in projects to earn LEED credits.
Credits MR5	2 Points Possible	Regional Materials This credit is dependent on project location. Qualified projects must be within 500 miles of both Mid-America Cabinets and the wood source.
Credits MR7	1 Point Possible	Certified Wood Mid-America Cabinets are constructed with sustainable wood products that are selectively harvested. Select hardwoods used in our manufacturing are Forest Stewardship Council (FSC) certified.
Credits MR4.4	1 Point Possible	Low-Emitting Materials Mid-America Cabinets adhesives are formaldehyde free and our coatings are low emitting. Our composite woods meet the stringent CARB II standards. In addition, when specified, our plywood contains no added urea formaldehyde (NAUF).
